

*Ezi SOLUTION TO TILE FIXING SYSTEM*

# COMPANY PROFILE

# COMPANY PROFILE OF Ezi GROUP

Ezi Group of companies inherited more than 20 years of experience toward manufacturing, marketing and development of building material industries, especially Technical Mortars. Ezi Group consists of 2 main companies which are Ezi Motartech Sdn Bhd & Ezi Fix Marketing Sdn Bhd. Our business covered the entire Malaysia region and also extended to Asia Pacific region including New Zealand etc.

Our objective is to provide easy solution to the modern approach of building construction industries and offer strong Technical Advisory Service, to support these industries to a higher level of expectation, and maximize customer satisfaction.

**Ezi produce reliable, high quality & excellent products through:**

- **Strong R&D resources**

Ezi strongly emphasizes on Research & Development and inherited strong R&D resources through collaboration with foreign expert, to strengthen and enrich its R&D aspiration and develop better products to serve in the regional construction industries.

- **Stringent Quality Control**

Ezi has successfully maintained the quality of every product through Stringent Quality Control System.

- **Precision German Mixing System**

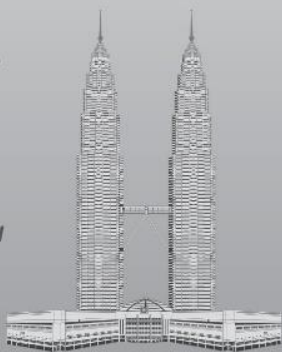

Ezi invested Precision German Mixing System in the Dry-mix production line for higher product quality, consistency & productivity.

- **Proper Plant Building**

Ezi invested 1 major plant that houses the R&D, Supply Chain, QA/QC, Product Dispatch, Maintenance and Production Department. The production divided to two production lines, which is the Dry-mix line and the Wet-mix line. The plant also consists of 2 large warehouses for the storage of raw material & the finish goods.

- **Compliance to international standard**

Ezi Product manufactured complying with the latest materials standards ISO 13007-1.
